

**F155 driver is a fusion of traditional fullrange concept with newest technologies. It is not only capable of exceeding 20KHz frequency range, but it does it with a finesse that many top class tweeters has trouble to present. Being a fullrange driver it can present to you a magical coherence, soundstage, naturalism, perfect midrange, and a very decent bass. With one driver you can really satisfy your needs for a complete loudspeaker in a small to medium listening room.**

#### **Specification:**

**SPL - 90 dB**  
**Fs - 51 Hz**  
**Vas - 13 L**
